

# ESTIMATED SAVINGS FOR FAMILIES WHO ARE NOW ON THE INDIVIDUAL MARKET

IN 2014 WHEN THE EXCHANGES ARE IN PLACE, UNDER HEALTH INSURANCE REFORM AS PASSED

# A FAMILY OF 4 MAKING \$33,300 A YEAR

- Will get quality insurance for a premium of about \$30 a week.
- Co-pays and deductibles in a typical year will be about \$1,900.\*
- So in total, the family's average out-of-pocket health care costs will be about \$3,500 a year, a savings of \$13,750 compared to what they would pay without reform.

## A FAMILY OF 4 MAKING \$44,400 A YEAR

- Will get quality insurance for a premium of about \$62 a week.
- Co-pays and deductibles in a typical year will be about \$4,000.\*
- So in total, the family's average out-of-pocket health care costs will be about \$7,200 a year, a savings of \$10,050 compared to what they would pay without reform.

# A FAMILY OF 4 MAKING \$55,500 A YEAR

- Will get quality insurance for a premium of about \$100 a week.
- Co-pays and deductibles in a typical year will be about \$4,400.\*
- So in total, the family's average out-of-pocket health care costs will be about \$9,650 a year, a savings of \$7,600 compared to what they would pay without reform.

#### A FAMILY OF 4 MAKING \$66,600 A YEAR

- Will get quality insurance for a premium of about \$141 a week.
- Co-pays and deductibles in a typical year will be about \$4,400.\*
- So in total, the family's average out-of-pocket health care costs will be about \$11,800 a year, a savings of \$5,450 compared to what they would pay without reform.

\*Co-pay and deductibles will vary for families based on the health of the family and the structure of the specific plan. Source: Calculations by Committee staff from HHS data in 2014 dollars, family incomes in 2009 dollars.
